

EXO EMPLOYER SERVICES FACTSHEET

MYOB EXO Timeclocks

Keeping an accurate track of employees' time has always been a challenge for businesses. Traditionally, employers have used manual punch cards as a way of keeping track of attendance. Now, thanks to MYOB, there is an easier and more accurate solution.

The **MYOB EXO Timeclock** includes various methods for employee clocking including biometric (fingerprint) scan, proximity card, magnetic swipe card, and basic keypad entry.

Implementing EXO Timeclock will immediately improve your time capturing processes, which in turn enhances your payroll process. Keypads and barcode readers can be connected to provide additional data entry such as cost centre / job costing allocation.

Combine EXO Timeclock with the EXO Time and Attendance module, to produce a high-class time capture solution that provides seamless integration for immediate data processing.

How does it work?

- EXO Timeclocks easily mounts on the wall and allows employees to conveniently clock in and out with the use of several methods of identification.
- The in and out entries for each employee are captured and saved as time stamps on the device.
- EXO Timeclocks are permanently connected to your computer network and are 'polled' when pays are processed. The relevant information is then instantly transferred into the MYOB EXO Time & Attendance module for immediate review.

Key technical features of EXO Timeclocks

- Various identification methods to suit the workplace environment and budget:
 - Biometric (fingerprint) scan
 - Proximity employee card
 - Magnetic employee card
 - Keypad entry
- Industry standard communications (Ethernet, WiFi, USB or GSM/GPRS/PSTN modem)
- Job costing & tracking through keypad or barcode scanner entry
- Large backlit graphic LCD providing clear display for employees
- Combine Time capture and Access control within the single device
- 2 x relay outputs to add meal break alarm or access to door latch

- Fully compatible with MYOB EXO Time and Attendance for seamless data processing
- Designed and manufactured in Australia
- Competitively and affordably priced, quick return on investment
- 12-month return to base warranty.

Optional accessories:

- Multi-card formats (magstripe, proximity, barcode)
- 5 hour operational backup (UPS)

Key benefits

- Eliminates 'time theft' by enforcing user identity and time entry
- Reduces error rate for incorrect time capture
- Major time saving on traditional manual time capture methods
- No duplication of time entry
- Seamless integration into MYOB EXO Time and Attendance.

EXO BUSINESS FACTSHEET

Additional modules to enhance your business

If you are interested in a more flexible business management solution for your larger, more complex business, and have some very specific industry requirements, we can help.
